**Donor Advised Funds**

Currently, there are 13 families who have donor advised funds with Vessel Christian Foundation.

Through donor-advised funds, donors receive an immediate tax benefit while distributing gifts to charitable organizations over time.

Donor-advised funds eliminate the administrative costs of creating and then administering a private foundation, enabling donors to ultimately give *more* to charity.

And donor-advised funds gives generous individuals access to knowledge and resources that help to ensure not only that they give, but that they give wisely and in ways that make a difference for God's Kingdom.
